

FH-MD Density Meter

- Measure the purity of gold (Karat)
- Geometric size of the weighing object is not needed to determine the density
- Temperature probe sensor & water bucket included
- RS-232 connection
- External display included

Model	FH-200-MD	
Capacity	200g x 0.005g	
Platform size	Ø 130mm	
Display	0.7" LCD (6 digits) with backlight	
Designators	ZERO, STABLE, NETT, UNIT, LOW BATT	
Weight units	g,ct, MM, MG1, MG2, MG3, MG4, MGt	
Density unit	Karat	
Repeatability	± 0.005g	
Temperature	Storage: -10°C ~ +50°C	Operating: 0°C ~ +40°C
Humidity	Storage: 5% ~ 90% R.H	Operating: 10% ~ 80% R.H
Power Source	6V 1.3Ah Rechargeable battery; 220VAC 12V Adaptor
