

WEIGHBRIDGE

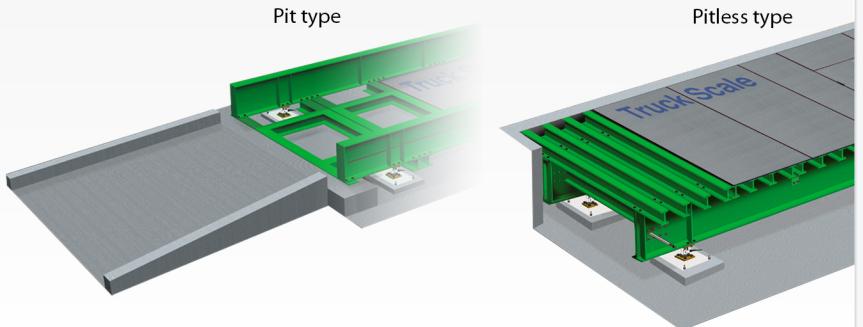

- Tough structure that proven for years
- Pit/pitless construction
- Steel deck/concrete deck available
- Loadcell protection from shock and side force
- Interface to PC, External display, and printer

Size (m x m)	Loadcell qty	Capacity
3 x 6	4	0~50t
3 x 9		
3 x 12	6	
3 x 15		0~100t
3 x 16	6/8	
3 x 18		

Pit or pitless

Pit type generally requires less space to install as ramps are not needed. However, Pitless type cost less due to less civil & construction work, at the same time offers easier maintenance work.

Concrete deck or Steel deck

Steel deck typically involves less initial cost & easier to move, While Concrete deck requires less maintenance & offers greater resistance to rust & corrosion.

Weighbridge Indicators

Variety of weighing indicators with different specific functions cause we understand every customers need different solutions.

Weighbridge Loadcells

Complete selections of weighbridge loadcells to suit any weighbridge applications.

Any capacities, any materials, any shapes.

Weighbridge Accessories

Feel free to expand the features of your weighing needs.
Printer, Alarm, External display, and PC software.
